

SOHO STORE UPDATES

SAVE THE DUCK

OBJECTIVE

Updating the Save the Duck store in SOHO is one of our favorite projects! Whether it's a seasonal window, new storytelling, or communicating the brand's dedication to "animal free", we're always excited to dive in and start the next update. Driving a "testament to technology" is at the core of every update in the SOHO store!

Over the years, we've collaborated with the SVD team to enhance this space with custom graphics, illuminated headers, and dimensional letters. We ensure the project is completed smoothly by managing all logistics and installations. We embrace the challenge of helping SVD present itself in fresh and unique ways for each new campaign.
